What is Infor Mashup Designer?

The Infor Mashup Designer is a development tool that allows you to create mashup applications. The Infor Mashup Designer is installed and deployed in an environment that includes Infor Smart Office.

Knowledge Prerequisites

To install this product, you must have the following knowledge and experience:

- Understand how to install and administer Infor Smart Office

System Requirements

Infor Application Requirements

Component	Supported Version(s)	Notes
Infor Smart Office	10.2.0.x, minimum version 10.2.0.0	Infor Smart Office server and all of its prerequisites must be installed before you install the Infor Mashup Designer. Infor Mashup Designer users must have Infor Smart Office client installed on their desktop machine.
LifeCycle Manager	10.x	Use the version required by your version of Smart Office.

Installation

- ["Installing Infor Mashup Designer in LifeCycle Manager" on page 6](#)
- ["Enabling Infor Mashup Designer Available to Users" on page 7](#)
- ["Adding the Infor Mashup Designer to the System Profile" on page 7](#)
- ["Next Steps" on page 8](#)

Installing Infor Mashup Designer in LifeCycle Manager

☐ **Download the installation package**

- ___1 Log in to your system as a Windows administrator.
- ___2 Open a command prompt.
- ___3 Create a temporary directory to hold the installation files.
- ___4 Access Infor Xtreme > Downloads > Products. Locate the User Productivity Platform record.
- ___5 From the Mashup Designer download record, download the Infor Mashup Designer installation package(s) to a temporary directory.

☐ **Download the patch file**

- ___1 Log in to your system as a Windows administrator.
- ___2 Open a command prompt.
- ___3 Create a temporary directory to hold the patch file.
- ___4 Access Infor Xtreme > Downloads > Products. Locate the User Productivity Platform record.
- ___5 From the Mashup Designer download record, download the patch by clicking the patch button and save it to a temporary directory.

☐ **Upload the installation package to LifeCycle Manager**

- ___1 Log into LifeCycle Manager as an administrator.
 - ___2 Click Admin > Upload Products.
 - ___3 On the Manage Products page, click Upload.
 - ___4 In the dialog box, browse to locate the installation package.
 - ___5 Upload the package.
- When a dialog box confirms the successful upload, click OK.

☐ **Install the Mashup Designer**

- ___ **1** In LifeCycle Manager, choose Actions > Install Product.
- ___ **2** In the list of products, select Infor Mashup Designer version. Click Next.
- ___ **3** Select space for the application and click Next.
- ___ **4** Select instance for component type and click Next.
- ___ **5** On the Summary window, click Finish.

A confirmation message appears for a successful install.

Enabling Infor Mashup Designer Available to Users

The Infor Mashup Designer is accessed through the Mashup > Tools menu. The application must be enabled to make it available to users.

☐ **Enable Mashup Designer available to users**

- ___ **1** On the Navigator, click Administration tools > Settings Editor > Mango Core.
- ___ **2** Click Enable selected under Application Settings.
- ___ **3** Ensure that Mashup Designer (designer) is deselected among the list of Allowed Applications.
- ___ **4** Click the browse button to create rules for Allowed applications.
- ___ **5** In the Rules – Allowed applications dialog box, click Add.
- ___ **6** Enter a name for the rule.
- ___ **7** Enable all applications that you have previously selected, including Mashup Designer (designer).
- ___ **8** Add users or groups that should have access to Mashup Designer.
- ___ **9** Click OK.
- ___ **10** Click OK.
- ___ **11** Click Save.

Adding the Infor Mashup Designer to the System Profile

You must add the Infor Mashup Designer to an Infor Smart Office system profile.

-
- ___1 In the Infor Smart Office canvas, choose Navigator > Functions > Administration Tools > Profile Editor.
 - ___2 In the drop-down list, select the profile to modify.
 - ___3 For the View option, select Basic.
 - ___4 From the vertical components tab, select Designer.
 - Select Enable Designer configuration.
 - In the Description field, type a description of the Infor Mashup Designer installation. Click Save.
 - ___5 Click Save and then click Close to close the profile.

Next Steps

No further configuration is required to use the Infor Mashup Designer.

- The Mango Core file in Infor Smart Office contains settings which allow an administrator to control the use of the Mashup Designer tool. For more information, see "Using the Settings Editor" in the *Infor Smart Office Administration Guide*.
- For information on how to use the Infor Mashup Designer, see the *Infor Mashup Designer User Guide*.

Upgrading Infor Mashup Designer

- ["Updating the Infor Mashup Designer" on page 9](#)

Updating the Infor Mashup Designer

Before you start Make sure that the new installation package is already uploaded to the LifeCycle Manager. For more information, see ["Download the installation package" on page 6](#) and ["Upload the installation package to LifeCycle Manager" on page 6](#).

- ___1 In LifeCycle Manager, locate the instance of Infor Mashup Designer to update.
- ___2 Right-click on Infor_MashupDesigner v<version> > Upgrade.
- ___3 From the Available versions drop-down list, select a version to which the application should be upgraded. Click Next.
- ___4 On the Summary window, click Finish.
A confirmation message appears for a successful update.

Uninstallation

- ["Uninstalling the Infor Mashup Designer" on page 10](#)

Uninstalling the Infor Mashup Designer

- ___1 In LifeCycle Manager, locate the Mashup Designer you want to uninstall.
- ___2 Right-click the Mashup Designer > Uninstall.
- ___3 Choose to uninstall the application and click Next.
- ___4 On the Summary window, review the information and click Finish. When a notification appears stating that uninstallation has finished successfully, click OK or click View log.
